EtO EMISSIONS
ARE
GOING
GONE
... and so are your worries, with Donaldson's ETO-Abator™ catalytic oxidation system. This is the only system that consistently meets all regulatory requirements for both sterilizer exhaust and low concentration aeration exhaust. Catalytic oxidation produces EPA-verified efficiencies in excess of 99.9% (99.0% for aeration). It also offers low operating and maintenance costs, and operates with no toxic chemicals. Our wide range of sizes and technical support ensures that you'll find a system to meet your needs.

JPC means Joint Purchasing ...and more.

JPC invented the group purchasing concept more than seventy years ago. We've been a purchasing problem-solver and a lifeline to financial solvency for healthcare institutions ever since.

Our tradition of excellence drives us to find new ways to be valuable to our membership: identifying market trends, price forecasting, computer assisted purchasing, seminars and symposia on topics of critical importance.

JPC is completely member-driven. You tell us what you need -- and you get more. We strive to provide the best prices, flexible inventory and purchasing options, easy access to contract information, broadest range of products and services.

Please phone or write for our directory of purchasing agreements.

• pharmaceuticals • medical/surgical supplies • environmental services • medical waste disposal • fuel oil and natural gas • building services • dietary supplies and equipment • maintenance supplies • capital equipment
